

## Livestreaming through Vimeo App

Thank you all for your patience! We are working closely with Vimeo to develop a way to watch directly through the Vimeo app, but at this time it works best to watch from your phone, tablet, or computer. On some devices, it may be possible to mirror your device to display on your TV, but not all devices or platforms have this capability.

Phone/Tablet/Computer to Roku TV- *NOTE: Each device combo can function a little differently, ex: Apple to Apple TV, android to Roku etc.*

1. Go to Settings on your Roku Tv
2. Then Choose System.
3. Next, choose 'Screen Mirroring'
4. Click 'Screen Mirroring Mode' or 'Enable Screen Mirroring'
  - a. Under the Screen Mirroring Mode, make sure you select either 'Prompt' or 'Always allow'.
